

Dear Participants,

We hope you're enjoying the challenge so far and making great progress on your projects for HackConclave24. As we approach the submission deadline, here are the final instructions to ensure your project submission is completed smoothly.

Submission Instructions:

1. **AI Utilization:** You are encouraged to leverage AI services, as this hackathon is ultimately a test of your skills. Use your creativity and knowledge to build something impactful.
2. **Deadline:** Submissions received after the deadline will not be considered. Please ensure you submit your project by **13/08/2024, 12:00 PM**.
3. **Problem Statements:** Choose any **2 out of the 5 provided problem statements** for your project.
4. **Datasets:**
 - Use any appropriate dataset from Kaggle or other online resources. We will be providing a sample dataset, but feel free to use any dataset that aligns with the problem statement.
 - Attach the dataset along with your submission as an IPython Notebook (.ipynb) or Python (.py) file.
5. **Code Quality:**
 - Your code should be readable and well-constructed.
 - Provide detailed explanations after each block of code to ensure clarity and understanding.
Project Hint: You can build a recommendation system, chatbot, app, or any other idea you wish to implement with the problem statement. Feel free to choose any approach that suits your project goals.
6. **Submission Link:**
 - Upload your GitHub link or Jupyter/Colab URL in
the <https://forms.office.com/r/yq9e7egLEb>

Important Notes:

- Ensure that your project submission is complete and accurate.
- Double-check all links to ensure they are accessible.
- Late submissions will not be accepted.

Thank you for participating in HackConclave24. We're excited to see the innovative solutions you've come up with!

Best regards,
The HackConclave24 Team
